

## 9. Python program to print all items in a dictionary

```
Dictionary1 = { 'A': 'Geeks', 'B': 4, 'C': 'Geeks' }
```

```
print("Dictionary items:")
```

```
# Printing all the items of the Dictionary
```

```
print(Dictionary1.items())
```

### Output

Dictionary items:

```
dict_items([('A', 'Geeks'), ('B', 4), ('C', 'Geeks')])
```
